Dear parents, Carers.

Introduction to Google Classroom

In the case of your **child's whole class** having to close because of a requirement to self isolate, we have set up google classrooms. Google Classroom is a web-based learning environment. When logged into Google Classroom, students can collaborate with their peers and teachers. Google Classroom offers a digital safe space for students to view class tasks, access learning materials, view posted assignments, and turn in completed work.

We have put step by step guidance on how to access and use google classrooms and a useful parents guide onto the school's website. Please do refer to this information when setting up the classroom.

The log in details needed are stuck into your child's reading record. This consists of a secure log in and a password that is unique to them.

We would suggest that after accessing your child's classroom, you and your child familiarise yourself with the platform together. This is where teachers will set work and send messages within the class stream. There will be a range of 'assignments' posted and some of the tasks can be uploaded/completed online for the teacher to view.

Yours sincerely,

Mr. N. B. Payling
